

## OUR “JUST ONE BITE” MENU

The word, “tapas” translates to “lid” in Spanish, and in Old Spain, the practice of placing a small saucer on top of a drink to keep out flies began with an order by King Alfonso X. While he was King, he ordered that all the inns serve small bites of food while serving wine. He believed that this would help promote good health, and soon the tapas tradition was born.

Spain is a very social country where people move from one tapas bar to another to enjoy wine tasting and often political conversations—all with a few nibbles placed on the cover plate.

So here at Moghul, we present you with tapas-style cuisine, featuring an infusion of Spanish, Mediterranean and Asian flavors.

<b>Salted Almonds</b> .....	<b>3</b>
